25X1X

1. The second two-channel transmitter (Halbsender) in Koepenick was tested on 15 April 1953. Upon successful completion of these tests, it was to be placed in service for the East Berlin medium wave broadcast.
2. A 20 kilowatt mobile transmitter was located in Burg near Magdeburg in mid-April. It was operated exclusively as a jamming transmitter, in order to disturb the reception of the Northwest German Radio (Nordwestdeutscher Rundfunk) programs.
